ABOUT ME

I am a physical oceanographer with skills in programming language and data analysis and visualization. I work actively in development using Python.

Python
Django
React
Git

scikit-learn · numpy · git · Bootstrap · LaTeX · Javascript · HTML · CSS · Node.js

PROFESSIONAL EXPERIENCE

2017 – 2021
CNPq Fellowship

Assistant Researcher — **National Institute for Space Research**
· Publication of books and articles on numerical modeling and Python ;
· Personnel training in numerical modeling in Python through a course;
· Construction of the model2roms toolbox, Python and Fortran based, to create the files needed to run the ROMS numerical model. Open-source project available on **Github**;
· Implementation of the WaveWatch 3 and ROMS Sea-Ice models on a supercomputer;
· Construction of the Ocean and Atmosphere Studies Laboratory website. Access the website **here**.

```
Python / React / Flask / Django / Big data / Fortran / C++ / Git / Bootstrap
/ HTML/CSS
```

2016 – 2017
CNPq Fellowship

Assistant Researcher — **National Institute for Space Research**
· Implementation of the COAWST numerical modeling system on a supercomputer
· Hydrodynamic and atmospheric modeling to study extreme weather events and ocean-atmosphere interaction in the Southwest Atlantic.

```
Python / Big data / Fortran / C++ / MATLAB
```

EDUCATION

2020 – 2021

Dev Full Stack — **HSM University**
```
Javascript / HTML+CSS/SASS / Webservice Client e Server / Angular / Node.js / UX
design / Banco de dados
```

2020 – 2020

Machine Learning A-Z™: Hands-On Python & R In Data Science — **Udemy**
Certificate available **here**.
```
Python / R / Tensorflow / numpy / scikit-learn
```

2014 – 2016

Master's degree: Remote Sensing — **Federal University of Paraná**
Thesis: *Ocean-Atmosphere Interactions in an Extratropical Cyclone in the Southwest Atlantic*. Avaliable **here**.
```
Python / Big data / NCL / Fortran / C++ / MATLAB / Linux
```

2009 – 2013

Bachelor's degree: Oceanography — **Federal University of Paraná**
Thesis: *Variability of Sea Surface Temperature during an Extreme Precipitation Event in Santa Catarina*. Avaliable **here**.
Undergraduate research project: *Meteorological aspects associated with the extreme event of November 2008 in the eastern state of Santa Catarina*. Avaliablea **here**.
```
GrADS / Python / Big data / Linux
```
